11 DOPING CONTROL

Sample collection at the World Athletics Indoor Championships in Belgrade 2022 will be conducted in accordance with World Athletics Anti-Doping Rules. The programme will be overseen by the World Athletics Anti-Doping Delegate, with the LOC responsible for organising the testing.

The sample collection programme will consist of both pre and in competition testing, carried out from the official opening of the team hotels until the end of the Championships.

Athletes will be selected for testing through a combination of random and intelligence-led methods and will be notified of their selection by trained and accredited Officers. A Team leader or official may be required to help in notifying the athlete who may be accompanied by a representative to the sample collection station.

At the time of notification, the sample collection officer will present their accreditation and advise which sample is required. They will then chaperone the athlete to the sample collection station where the sample will be collected. Official identification will be required before providing the sample, so athletes must ensure that they carry identification documents at all times (passport, ID card). A specific Covid-19 protocol will be applied during the sample collection process.

An athlete breaking or equalling a World Record (including a World U20 Record) will be required to undergo doping control for ratification purposes. Should an athlete request sample collection for the ratification of an Area or a National Record etc., such a test will be carried out for a fee at the request of a team official. A request for the record test will need to be completed at the Technical Information Centre (TIC) before the sample can be collected.

A significant increase of requests for additional doping controls for the validation of National Records has been observed at World Athletics Series events and every effort will be made to accommodate these extra doping controls, which come on top of the doping controls planned for the event. However, priority will be given to the doping controls planned for the event.

We are asking the athletes whose national rules allow for delayed testing (e.g 48h or 72h) to arrange for doping controls with their local anti-doping agency after the event.

Please note that World Athletics cannot guarantee that it will be able to accommodate all requests.

Athletes, who therapeutically use substances or methods included on the prohibited list, must ensure they have the appropriate authorisation in place before the Event, in accordance with the World Athletics Anti-Doping Rules.
